

14-2
International Journal of

CONTROL

Formerly "Journal of Electronics and Control"

LIBRARY USE ONLY

UNIVERSITY OF HAWAII
LIBRARY

Editor: J. THOMSON

Editorial Board:

France	- -	Professor P. AIGRAIN
Holland	- -	Professor H. B. G. CASIMIR
U.K.	- -	A. T. FULLER
Germany	-	W. KLEIN
U.S.A.	- -	J. C. LOZIER
U.K.	- -	Professor J. C. WEST

Volume VI. First Series

July 1967 to December 1967

CONTENTS OF VOL. VI. (Nos. 1-6)

(FIRST SERIES)

NUMBER 1—JULY

	Page
Periodic Solutions of Differential-Difference Equations with Relay Control. By Y. KASHIWAGI, Department of Aerospace Engineering, Virginia Polytechnic Institute, Blacksburg, Virginia, and I. FLÜGGE-LOTZ, Division of Engineering Mechanics, Stanford University, Stanford, California	1
Discrete Differential Approximation and System Identification. By K. S. P. KUMAR, Department of Electrical Engineering, University of Minnesota, Minneapolis, Minnesota, U.S.A.....	27
On the Synthesis of Insensitive Linear Feedback Control Systems. By P. J. MARINO, Bell Telephone Laboratories Incorporated, Holmdel, New Jersey.....	33
Optimal Control of Linear Stochastic Systems. By S. T. ARIARATNAM and N. K. LOH, University of Waterloo, Waterloo, Ontario, Canada.....	51
Stability Conditions for a Mixed Distributed and Lumped Parameter Control System. By P. K. C. WANG, Department of Electrical Engineering, University of Southern California, Los Angeles, California.....	65
The Use of an R.M.S. Describing Function for the Study of Low-order Systems Incorporating Backlash. By ASIM K. SEN, Department of Electrical Engineering, University of Manitoba, Winnipeg, Canada.....	75
Gradient and Quasi-linearization Computational Techniques for Distributed Parameter Systems. By ANDREW P. SAGE, Information and Control Sciences Center, Institute of Technology, Southern Methodist University, Dallas, Texas, U.S.A., and SYAMA P. CHAUDHURI, School of Engineering, Evansville College, Evansville, Indiana, U.S.A.....	81
Research Note:	
On the application of Markov Theory to a Certain Non-linear Control Problem. By THOMAS Z. FAHIDY, Department of Chemical Engineering, University of Waterloo, Ontario, Canada.....	99

NUMBER 2—AUGUST

	Page
Sensitivity Considerations and Comparisons of Sampling Interval Criteria for Discrete-continuous Feedback Control Systems. By K. E. TAIT, School of Electrical Engineering, University of New South Wales, Sydney, Australia.....	101
System Constraints and Location Hypersurfaces in Discrete-continuous Systems. By K. E. TAIT, School of Electrical Engineering, University of New South Wales, Sydney, Australia.....	147
On the Closed-loop Sensitivity Reduction of Non-linear Systems. By ELIEZER KREINDLER, Research Department, Grumman Aircraft Engineering Corporation, Bethpage, New York 11714.....	171
On the Control of Stochastic Systems. By D. D. SWORDER, Department of Electrical Engineering, University of Southern California, Los Angeles, California 90007.....	179
On Optimal Fixed Point Linear Smoothing. By J. S. MEDITCH, Boeing Scientific Research Laboratories, P.O. Box 3981, Seattle, Washington 98124.....	189

NUMBER 3—SEPTEMBER

The Replacement of Saturation Constraints by Energy Constraints in Control Optimization Theory. By A. T. FULLER, Engineering Department, Cambridge University.....	201
Spectral Analysis of Randomly-gated Random Signals. By S. G. LOO, Department of Electrical Engineering, University of Newcastle, Newcastle, N.S.W., Australia.....	229
Effect of Intermittent Regulation on Power System Steady State Stability. By V. V. S. SARMA, B. L. DEEKSHATULU and H. N. RAMACHANDRA RAO, Department of Electrical Engineering, Indian Institute of Science, Bangalore 12, India.....	241
Dual Control Strategies for Discrete State Markov Processes, Part I. By J. S. RIORDON, National Research Council, Ottawa, Canada.....	249
A New Model for the Control Mechanism of the Human Eye. By D. N. P. MURTHY and B. L. DEEKSHATULU, Department of Electrical Engineering, Indian Institute of Science, Bangalore 12, India.....	263
Effect of Different Types of Regulators on Power System Steady State Stability. By V. V. S. SARMA, B. L. DEEKSHATULU and H. N. RAMACHANDRA RAO, Department of Electrical Engineering, Indian Institute of Science, Bangalore 12, India.....	275

	Page
On Differential Games. By R. CHATTOPADHYAY, University of California, Los Angeles, California.....	287

Research Note :

Comment on 'An Application of Lyapunov Method to Synchronous Machine Stability by Fallside and Patel'. By S. M. CHIN, Mathematics Department, University of Melbourne, Parkville, Victoria, Australia.....	297
--	-----

 NUMBER 4—OCTOBER

The Controlled Transition of a Rotating Shaft Through its Critical Speed. By A. S. QAZI and A. G. J. MACFARLANE, Control Systems Centre, University of Manchester, Institute of Science and Technology...	301
---	-----

Dual Control Strategies for Discrete State Markov Processes, Part II. By J. S. RIORDON, National Research Council, Ottawa, Canada.....	317
--	-----

Finite Regions of Attraction for the Problem of Lur'e. By J. A. WALKER, Department of Mechanical Engineering and Astronautical Sciences, Northwestern University, Evanston, Illinois, and N. H. McCLAMROCH, Department of Information and Control Engineering, University of Michigan, Ann Arbor, Michigan.....	331
---	-----

Study of a Class of Time Dependent Systems. By B. V. DASARATHY and P. SRINIVASAN, Department of Mechanical Engineering, Indian Institute of Science, Bangalore 12, India.....	337
---	-----

A Simple Bound for Stable Non-linear Systems with Input. By DONALD M. WIBERG, Department of Engineering, University of California, Los Angeles, California.....	343
---	-----

A Dual-mode Control Scheme for Systems with High Accuracy and Large Range of Step-input Variations. By G. K. DUBEY and G. C. DE, Indian Institute of Technology, Bombay.....	351
--	-----

Stability of Feedback Systems Involving Time-delays and a Time-varying Non-linearity. By J. A. WALKER, Department of Mechanical Engineering and Astronautical Sciences, Northwestern University, Evanston, Illinois.....	365
--	-----

Stability of Linear Dynamical Systems with Memoryless Non-linearities. By J. B. MOORE, Department of Electrical Engineering, University of Newcastle, Newcastle, New South Wales, Australia.....	373
--	-----

Periodic Oscillations in Sampled Data Control Systems with Back-lash. By B. L. DEEKSHATULU and D. N. PRABHAKARA MURTHY, Department of Electrical Engineering, Indian Institute of Science, Bangalore 12, India	381
--	-----

NUMBER 5—NOVEMBER

	Page
Non-linear Properties of Discrete-continuous Feedback Control Systems with Signal Dependent Sampling, Part I. A Recapitulation of Linearity Conditions. By K. E. TAIT, School of Electrical Engineering, University of New South Wales, Sydney, Australia.....	401
Standard Test Set for Testing and Realization of Threshold Functions. By DEBABRATA SARMA, SUNIL RANJAN DAS and A. K. CHOUDHURY, Institute of Radio Physics and Electronics, University of Calcutta.....	433
Minimal Third-order Expressions of Boolean Unate Functions. By A. K. CHOUDHURY, DEBABRATA SARMA and SUNIL RANJAN DAS, Institute of Radio Physics and Electronics, University of Calcutta.....	447
Lagging Filtering and Progressive Interpolation. By A. P. ROBERTS, Department of Engineering Mathematics, The Queen's University of Belfast	461
Some Further Contributions to "A Model Reference Adaptive Control System using a Cost Function Criterion for Driers and other Dead-time Processes"—The use of a Dynamic Model. By M. S. BECK and N. E. GOUGH, School of Control Engineering, University of Bradford, Bradford 7	481

NUMBER 6—DECEMBER

Identification via Non-linear Filtering. By W. H. KROY and A. R. STUBBERUD, Department of Engineering, University of California, Los Angeles, California	499
On the Stability of Equilibrium of a Distributed Parameter Feedback Control System. By WILLIAM E. KASTENBERG, Department of Engineering, University of California, Los Angeles, California	523
Fast Model Search Control Systems. By W. G. RAE, Department of Electrical Engineering, University of Wisconsin, Madison, Wisconsin.....	537
Some Studies on the Problem of Three-level NAND Network Synthesis. By A. K. CHOUDHURY, KAMAL KUMAR CHAKRABARTI and D. SARMA, Institute of Radio Physics and Electronics, University of Calcutta.....	547
The Use of Quantization in Regression Analysis. By D. Q. MAYNE, Centre for Computing and Automation, Imperial College of Science and Technology, Exhibition Road, London, S.W.7.....	573

	Page
An Algorithm for Vertex-pair Connectivity. By I. T. FRISCH, Electronics Research Laboratory and Department of Electrical Engineering and Computer Sciences, University of California, Berkeley, California . . .	579
Research Note:	
On a Binary Encoding Method. By F. M. G. TOMESCU, Polytechnical Institute, Bucharest, Romania	595
Subject Index	599
Author Index	601
